CARROLLTON — Carroll County Energy LLC will hold a public informational meeting next week to discuss its plan to build a 700-megawatt power plant north of the village.

The meeting will be held Aug. 22 from 6-8 p.m. in the Fine Arts room at Carrollton High School, 252 Second St.

Representatives of Carroll County Energy and the Ohio Power Siting Board, the agency that reviews power plant projects, will be at the meeting to answer questions.

Advanced Power North America, the company behind the Carroll County Energy project, announced last month that it wants to build a natural-gas-burning power plant on a 77-acre site about 2.5 miles north of the village on state Route 9.

The company has said the power plant would generate enough electricity to power 700,000 homes.

Construction would involve up to 500 workers and the plant would employ 30 full-time workers once completed, company officials have said.
